

IST 505 Asset Checklist

Remaining visuals, citations, and decisions before submission

Phase 3 Asset Checklist

What Still Needs To Be Captured Or Confirmed

This checklist is meant to help the group move from draft language to a submission-ready Phase 3 packet.

1. Screenshots And Visuals

- Main dashboard screenshot with engagement view visible
- Recommendation panel screenshot
- Instructor response area screenshot
- University preset selector screenshot
- One comparison visual showing different outputs across at least two university presets
- Optional flow diagram showing simulation -> dashboard -> instructor response -> updated class state

2. Writing Gaps

- Final problem statement paragraph agreed by the group
- Final novelty paragraph agreed by the group
- Short related-systems paragraph with 2-3 cited examples
- Final kernel-theory-to-feature paragraph or table
- Final evaluation paragraph distinguishing current formative evidence from future validation

3. Citation Gaps

- Endsley citation for situation awareness
- Sweller citation for cognitive load
- Learning analytics / advising-mode citation
- Instructor heterogeneity citation
- Generative agents citation if the methodological precedent is kept

- Any cited competing systems or commercial examples

4. Evidence Already Present In The Repo

- Working overview and artifact summary in README.md
- Context-sensitivity and bias-aware design rationale in DEMOGRAPHIC_DESIGN_RATIONALE.md
- Differentiation language in DSR_DIFFERENTIATION_SPEC.md
- Evaluation staging in EVALUATION_ROADMAP.md
- LLM-methodology framing in LLM_SIMULATION_METHODODOLOGY.md

5. Decisions The Group Should Make Soon

- Whether the paper centers IDSS terminology, SAGE terminology, or both
- Whether the Valentine's-party generative-agent reference stays in the final draft
- Whether live Zoom integration is included as future work or as current proof-of-concept infrastructure
- Which claims are presented as current evidence versus future research agenda

Prepared from local IST505 project materials on March 28, 2026.
